

Microsoft Teams Calling

Quick Reference Guide

Dialing an External Call

• To dial a number from Teams, go to **Calls** , click **Dial a number**, and then enter the 10-digit number of the person you want to reach by using the dial pad. Then click **Call**.

*You do not need to a dial a number or code ahead of the 10-digit number to make a call.

Answering an External Call

- When someone calls you, you'll get a notification that lets you accept or decline the call.
 - Click Accept with audio 🖌 to answer with audio only.
 - Click Decline call _____ to decline the call and go on with your day.

Place a Call on Hold

Select More Options in your call window and choose Hold.
 Everyone in the call will be notified that they've been put on hold, and you can continue your call by clicking Resume.

Transfer a Call

A **Blind Transfer** will transfer the call to the recipient immediately. **Consult Then Transfer** allows you to speak with the recipient and announce the call before completing the transfer.

- BLIND TRANSFER: Select More Options
 Transfer in your call controls. Then, type the name of the person you want to transfer the call to and select them. To transfer to an external number, type in the 10-digit number you would like to call. To finish, select Transfer.
- TRANSFER TO VOICEMAIL: Select More Options
 ---- > Transfer in your call controls. Then, type
 the name of the person you want to transfer the call to and select them. To transfer to a voicemail,
 select Work Voicemail from the pull-down menu. To finish, select Transfer.
