

Cloud Fax Training

Introduction

Cloud Fax is an inbound & outbound electronic faxing solution allowing users to send and receive faxes via their email or via the Cloud Fax Desktop Client.

A screenshot of the "Internet Fax" web application interface. The interface includes a header with the Evolve IP logo and tagline. The main area contains a form for sending a fax with fields for "To:", "Subject:", "Country:" (set to "USA - 1"), and "Fax #:". There are buttons for "Save", "Address", "Add Recipient", "Load List", "Delete Selected", and "Delete All". A "Send" button is at the bottom right. The interface is clean and professional, with a light gray background and blue accents.

On-Demand Training

e-Learning training courses can be found in the Evolve IP Client Training Center, our Learning Management System (LMS) designed specifically for our clients and their training needs. Our on-demand training is free for all Evolve IP clients and accessible via the Evolve IP Client Training Center.

Follow the link below to enroll in a specific on-demand training course. You will be prompted to login with your Evolve IP Client Training Center credentials. If you do not have credentials, please ask your administrator to contact training@evolveip.net to register your organization in the LMS.
